## A Prohibition Rally

Representatives of the prohibitionists of the Didsbury constituency met in the Zion Branch at 11.30 a.m. on Tuesday afternoon, May 29th. Mr. H. H. Hall, Secretary of the Social Service Council was present to advise concerning organization for the coming referendum. It was decided to organize two committees to handle the work of supporting question "A" in this constituency, one at Three Hills for the east and the other at Didsbury for the west. Mr. Fred Moyle was chosen Honorary President for the whole constituency. The personnel of the Didsbury committee is as follows:

President—Rev. W. B. Douglas

Vice Pres.—Rev. J. F. Gault

Secretary—Rev. W. M. Scott

Treasurer—Mr. W. Miller

Chairman of Finance Committee—Mr. Norman Clarke

A discussion followed concerning the plan of campaign and the ballot. Mr. Hall explained the principle of the single transferable proportional ballot and spoke concerning each of the four questions being submitted. Stress was laid upon the fact that the use of the word "X" in voting would spoil the ballot. Instead, the figure 1 must be placed against the voter's first choice, and, in his own opinion he may mark his second and other choices with 2, 3 and 4. The slogan "A Majority of 1800 for question A" was suggested for this constituency. To achieve this, every prohibitionist having the right to vote will need to exercise it.

A well attended mass meeting was held in the evening. Mr. Robertson gave the opening address in which he dealt well with the general aspect of the liquor question from the physical, moral, social and racial standpoints. Mr. Hall followed and gave an excellent address. He sketched the history of the liquor question in Alberta and with pointed illustrations, gave a solid argument and impressive appeal reaching both mind and conscience, giving a fitting close to this initial, local prohibition rally.

## Baseball Notes

The first league game of the season was played off at Didsbury on the afternoon of May 29th, when Innis, full flashed with the home team. The weather was splendid, the crowd large, and the game hung high as it were. The game was full of thrills and pep.

One of the features of the game was the marvellous come-back, staged by Earl Freeman, in the pitchers box. Owing to having injured his arm, Ward Keith, our regular pitcher was unable to do the twirling and Freeman, who had not done mound duty for some years was rushed into the box. He pitched a marvellous game and should have been credited with a shut-out as the score at the end of the eighth inning was 8-0 in favor of Didsbury. In the ninth with two men out and one strike to go the merry-go-round started and six errors, a base on balls and a hit batsman allowed him to bring in five runs making the score 8-5. The team came back in holding down the visitors. E. Dawson on first base made several remarkable catches, which were cheered by the fans. Harold Clements, our star catcher, while at bat in the second inning was hit on the hand by a fast ball from Denney, the Innisfield pitcher, and one of the bones in his hand was broken. Notwithstanding this however he had Dr. Evans bandage it up and pluckily played out the balance of the game. He will however be out of it for some time to come which will be much regretted as Harold is one of the snappiest little catchers along the line. The Innisfield players also

## No Reason For Discouragement

There has been a lot of moan and groan about the "blue era" talk lately in some Western Members of Parliament and other Western men during the past few months. Such talk, instead of being constructive and helpful in bringing about better government and improvement, is almost always destructive and harmful, and only a detriment to the cause of advancement.

Western Canada has suffered from a number of hard years and adverse conditions. But this is true of the whole world. Furthermore, it was inevitable following the gigantic era of destruction in which all civilized nations engaged during 1914-1918, and the inflation which took place during those turbulent years. Anybody who anticipated anything else was a fool who was no head to all the lessons of history.

This Western country, like other countries the world over, have had set-backs of bad years, even times of momentousness, and such periods are always more severely felt in a new and only partly developed country than in those where conditions are more settled and therefore more stable. But this is no cause for pessimism and downward discouragement.

There is a good deal to be said for the theory of Emile Coue. It is no new theory, in fact it is as old as the world. Let one man begin to talk pessimism to his neighbor, and by his neighbor repeat it to a third, and the third to a fourth, and so on, and it will not be long before by third or fourth and confidence they produce the very conditions which before only existed in their imagination. Lacking confidence themselves, they inculcate others, and with lack of confidence they adopt methods which soon operate to close the wheels of industry and progress.

Reversely, let men adopt the view and act upon it that "they'll get by in every way, time are getting better and better" and they will get better.

After all, what has the West to be blue about? Saskatchewan is the chief grain producing section of Canada. It produces one-half of all the wheat grown in Canada, and last season Saskatchewan raised the second largest wheat crop in its history, as well as an enormous quantity of other grains. According to a careful and conservative estimate by an official of the Saskatchewan Government who is in the best possible position to judge, the proceeds of the sale of the agricultural crops of Saskatchewan last year netted a profit to the farmers of one hundred millions of dollars.

Granted that the position of Western farmers is not all that it should be and that people would like to see the fact remains nevertheless, that their position is a whole lot better today than a year ago. Saskatchewan's one hundred millions over the cost of agricultural production has gone in the liquidation of debts incurred in equipping the farms of the province and overcoming a few lean years. That money is not going to be after it will find its way back for further productive enterprise. It will not fall into circulation.

Millions of dollars have been paid to municipalities in payment of arrears of taxes with the result that Western municipal organizations are now in a position to function in their own right and to do so in several succeeding years. These millions of dollars were paid by the people as individuals, to their services as a corporate body. They will themselves reap the benefit. The price of farm implements has come down, farm labor is not so expensive and with a return to more active immigration further production may be expected. The outlook is again becoming active with more extensive higher line construction possibilities than for many years past, and, born of the experience of the past few years, really constructive and earnest efforts are being put forth to overcome the difficulties and solve the problems which adversely affect Western agriculture.

Why be discouraged, discouraged, blue? Contrast the position of the resident of Western Canada, with life and property secure, and enjoying the widest possible freedom of full civil liberty, with the people of most countries in Europe today. Yes, it is true. Yes, but not as happy as in earlier times. Prejudice still in Western Canada when its most populous provinces boasts of more rural population per head of population than any other country in the world, where education is free and available to all, where the standard of health and living is high, where unemployment is decreasing more rapidly than in most countries, and where opportunity knocks at the door. Such talk is both wicked and un-Christian, marked because dishonest, should be cast off as an insubstantial upon which to rest.

As everybody knows, he has practically dedicated himself to making life better worth living in regions where the future for the greater part of the year is in her steepest and most forbidding mood. A mere summary of what he has accomplished in Labrador and Newfoundland constitutes one of the noblest acts of human self-sacrifice and human achievement. ## A Good Type of Settlers

Farmers from Iowa and Nebraska Have Eyes on Western Canada

(By G. C. Porter of Winnipeg)  
Des Moines, Iowa.—While I believe the great Southwestern States will send the larger number of farmers to Canada this year, Iowa and Nebraska will contribute the best type. These going north from these two States have more money, better equipment and are superior farmers. Agriculturally, Iowa and Nebraska are very similar to Alberta, Saskatchewan and Manitoba. Those now treading to the prairie provinces are the sons and grandsons of former Canadians, Scandinavians, and a considerable sprinkling of Europeans. The pioneer instinct and love of the soil are stronger in them than in the so-called American type from the great Southwest. In one respect they are similar—their reason to make a home on the soil in the Canadian Northwest.

T. V. Bennett is in charge of the Nebraska territory for the Dominion Government, and A. E. Pilkie in Iowa. I was in Omaha with Bennett and in Des Moines with Pilkie. Each is most optimistic with their mail bagging out certificates for owners of the stock and farm equipment. Each carried an automobile and a small tractor, and the agent told me his prospects were nearly in excess of last year, probably twenty per cent.

Bennett was equally busy and said more of his prospects were taking money to buy farms than in other days, though the man with three or four thousand dollars and equipment was in the majority. They will rent at first or homestead, explained Bennett to me, and later buy land. They are better types, Bennett explained, than in other years, good settlers all.

While the majority of these Nebraska and Iowa people are seeking prairie farm lands, both Pilkie and Bennett said they were having more than the usual number of inquiries about British Columbia real estate, position and fruit farms. The Prince George district and the Okanagan Valley is the objective point of many of these prospects, these agents explained.

These two states have enjoyed too long a crop in succession and the renters have money now to get a start in Canada. This has proven a big factor in the movement, and also this condition has given many farmers who have land down here is mortgaged, a chance to sell out his equity and go to the Canadian prairies with ten to twenty thousand dollars. It is the experience of the Dominion agents down here that the movement northward is usually most active in those states that have harvested big crops the previous year.

## Ottawa Urged To Find Method For Controlling Lake Freight Rates

Ottawa.—The Senate heard session talk regarding Western Canada when Hon. John G. Turfitt, of Austin, Minn., urged that the Government find some method of controlling lake freight rates and insurance, as the Canadian people "were being robbed, both on the lakes and on the Atlantic." If the west came to the conclusion that there was no possibility of redress, there would be a strong secession movement in that part of the country, Senator Turfitt said.

Senator W. H. Bennett, of Illinois, Ont., voiced strong opposition to the sale of the vessels of the Government Merchant Marine on the Great Lakes, advocating that these vessels be kept in the grain trade to assist in lowering the grain rates for the western farmers. He asked the Government to ascertain who had advised Sir Henry Thornton to sell these ships, and if his advisers had done so, to take them back to the Canadian people. Canadian vessel owners were trying to drive trade from the Canadian National Railway, he said. They preferred to ship through American ports, where the Canadian grain could be sold. It was most unfortunate that the railways making up the present Government system had been taken over, said Senator N. A. Belcourt, of Ottawa. It was the greatest mistake since Confederation, and the only remedy was to hand the railways over to somebody to operate.

### U.S. Liquor Ruling

American Government Takes Stand Respecting Three-Mile Limit

Washington.—The United States Government, taking a position with regard to the transmission of liquor into territorial waters of the United States, decreed that the rigorous interpretation of the prohibition law given by the Supreme Court shall be made effective June 15.

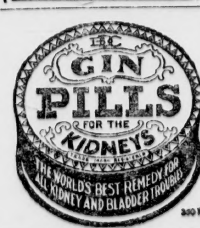

Secretary of State Hughes was requested by the treasury to communicate notice of the decision to all foreign governments. The treasury, which has jurisdiction over all prohibition enforcement, suggested that the state department advise foreign governments that all ships entering the three-mile limit will be subject to the new application of the law without exemption, and that no further postponement may be expected from this Government regarding the effective date.

### Would Probe Sugar Prices

Winnipeg.—Claiming that there is no justification for the advance in sugar prices, the Western Sugar League of Winnipeg will request the Federal Government to institute an investigation. The league is urging a boycott by Winnipeg housewives against the use of sugar, and intends to make a concerted effort with the housewives of the United States and Canada to force a reduction in the price of the commodity.

### No Political Interference

Sir Henry Thornton Says There Has Been No Attempt to Influence Him

Hamilton.—At one time Sir Henry Thornton had an ambition to be a police chief, he stated here, but his ambition to look after crime led him to do the next best thing, to look after the Canadian National Railway.

No politician had attempted to influence him in any way in his important decision, he said. They had to make a success of public ownership whether they liked it or not, for it was here to stay.

The C.P.R. had shown a spirit of co-operation, and the two big roads would work hand in hand for the welfare and development of Canada, he said.

FRANK PLOUDE NOW PRAISES DODD'S KIDNEY PILLS

Ontario man who Suffered for Six Years found Relief and gives the Credit to Dodd's Kidney Pills.

Dean Lake, Ont.—(Special).—Mr. Frank Ploude, a well-known resident here, is always ready to recommend Dodd's Kidney Pills to all who suffer from kidney trouble.

"I have suffered with my kidneys for the last six years," Mr. Ploude states. "The pains at times were so intense I was unable to work. I saw your advertisement in the newspaper a year ago, and decided to give your medicine a trial. All my pains have now gone and backaches are a thing of the past. If any poor sufferers are troubled with kidney disease I would advise them to take Dodd's Kidney Pills. They would be surprised how quickly they would get relief."

Dodd's Kidney Pills have become a family remedy all over the Province of Ontario, because people have tried them and found them good.

They are purely and simply a kidney remedy. They help Rheumatism, Lumbago, Diabetes, Lame Back, Heart Disease, and Urinary Troubles, because all of these are either kidney diseases, or are caused by the kidneys failing to do their work.

He appealed on behalf of the Government for help in the formation of a national air policy.

Sir Samuel expressed the view that the Imperial air communications should have a prominent place in the agenda of the Imperial Conference in the autumn and he wanted to see the Empire take the lead in air powers.

### Protest Against Turk Grant

London.—The British High Commissioner in Constantinople, has been instructed to register an emphatic protest against the grant by the Turks of rights within the kingdom of Irak (Mesopotamia) and to declare that Great Britain cannot recognize the validity of any such grant.

This was announced in the House of Commons in a statement by the Minister of Foreign Affairs, speaking on the Foreign Office.

We are a good deal hampered because of a lot of things we don't know.

Lausanne.—France has officially warned Turkey anew that she does not like the Turkish concentration of troops on the Syrian frontier, and has added that if Turkish military pressure on the Syrian border is not removed, it may be difficult for France to go on with the Lausanne peace negotiations.

The French charge delivered the warning to Constantinople and Gen. Pella, the French High Commissioner, repeated it to Ismet Pasha, who said he would refer the point to his Home Government.

What Gen. Pella practically told Ismet was that France refused to be bluff. "The latest and more official notification to Turkey goes a step further and, according to the French spokesman, plainly indicates to Ankara that failure to liquidate the questions satisfactorily to France may render continuation of the Lausanne negotiations problematical so far as France is concerned."

The Turkish representatives issued a statement maintaining they had a perfect right to mobilize troops in Cilicia.

The Turkish statement says: "After all, we are still at war with the allies and Greece, and have a perfect right to maintain troops where we think fit."

Turkey has about 25,000 troops in Cilicia, the French about 25,000 troops, chiefly colonial.

The French representative further explained that no time limit was attached to the notification to Turkey, and that there was no reason why the Lausanne negotiations could not continue at least for the present.

In conference circles the general impression prevailed that the Franco-Turkish controversy would be adjourned and would not be the cause of a second collapse of the Near East conference.

The second phase of the conference, which Lausanne is now witnessing, is mainly a financial and economic battle between Turkey and Great Britain on territorial questions, like Mosul.

France's protest against the troops in Cilicia is approved by the British delegation.

WEDNESDAY, MAY 30th,

Only a little is needed to spread rumors but for reliable news you should read your home paper.

The man who went out to milk and set down on a boarder in the middle of the night, and waited for the cow to back up, was a brother to the man who kept a store and wouldn't advertise because he reasoned that the purchasing public would back up to his place of business, when it wanted something.

It wasn't an Alberta editor but a printer's devil who was going through his first experience on making up forms. The paper was late and the boy got the forms mixed. The first part of the obituary notice of a prominent citizen had been dropped in the forms, and the next handful of type came off a page describing a recent fire. It read like this: "The full brothers loved the body to the grave and as it was consigned to the flames there were few if any regrets, for the old wreck had been an expense to the town for years. Of course there was individual loss, but that was fully covered by insurance." The widow thinks the editor wrote the obituary that way because the lamented partner of her joys and sorrows used his five years' subscription.

**BETTY COMSON COMING**

Betty Comson, Paramount star, is coming to the Opera House next Friday and Saturday as the featured player in "To Have and To Hold," a dramatic and picturesque photoplay of old England and Virginia. Her sister has the leading man's role. The picture is said to be one of exceptional charm and thrill.

**IF YOU BELIEVE IT, IT'S SO**  
Perley Poore Sheehan's widely read novel, "If You Believe It, It's So" has reached the screen as a Paramount picture with Thomas Meighan as the star. The story of a young city crook who finds peace and happiness in the country is delightfully told by a cast of players which includes in addition to the stars, Theodore Roberts, Pauline Starke, Joseph J. Dowling and Charles O'Grady. The picture comes to the Opera House Friday and Saturday, June 2 and 3.

**IN MEMORIAM**

In affectionate remembrance of my beloved husband, Elton Christner, who entered the better land June 1st, 1919.

Four years have passed and still to memory dear,  
I breathe your name and shed a tear;  
Time cannot alter love so dear and true.

This day brings back my grief anew.  
His smiling face I loved so well,  
And the sweetest of memories  
Are all that are left.

Of my beloved husband, gone hours to rest,  
So may God keep watch 'tween thee and me.

This is my prayer,  
He holds thy hand, He clasps mine  
And keeps us near.  
Sadly missed by me.

Roseita Christner.

48,000,000 bushels of grain awaited the opening of navigation at Fort William and Port Arthur this spring.

Flood conditions in New Brunswick and Maine this spring were the worst since 1887.

Damage to Canadian Pacific property in Western Canada by floods this spring amounted to approximately \$200,000.

Calgary is the leading telephone city on the continent with one instrument to every 4.16 persons. The phones in this city are automatic.

The per capita debt of Canada is approximately \$162, as compared with \$220 for the United States, \$150 for Great Britain, \$85 for France and \$257 for Australia.

Canadian Pacific steamers "Marblehead" and "Marianopolis" docked at St. John with over 400 Hebridean immigrants to Red Deer, Alberta, and various parts of Ontario.

The 1923 camp of the Alpine Club of Canada will be pitched in Larch Valley, near Moraine Lake, nine miles from Lake Louise in the Canadian Pacific Rockies.

Travelling 572 knots in twenty-four hours, an average of from 23 to 24 knots per hour, the Canadian Pacific liner "Empress of Canada" recently established a record for commercial vessels on the Pacific.

The last link in the great 6,500 mile scenic tour through Western Canada and the United States will be thrown open to traffic on June 1st when the new \$100,000 Motor Highway will be officially opened.

A case of timely and grass seed arrived in Vancouver via Canada Pacific Highway from Toronto ten days after an order had been sent to the Ontario Capital. This constitutes a record in service.

In architectural style the new Basilica at St. Anne de Beaupre will be a combination of the Roman and the Gothic. The steeple in front will be 275 feet high and will contain in the chancel the new Basilica will contain twenty-six altars.

The honor of running the first ship into Montreal harbor from the ocean fell this year to Captain William Aldman, commander of the Canadian Pacific steamer "Belgobrook," a freighter. The "Maunabo" of the same line was the first vessel to carry trans-Atlantic passengers into the port in 1923.

The number of strikes and lock-outs in Canada during 1922 was 85. The number of working men involved in the strikes was 410,000 and the number of working days lost 1,575,770. Approximately fifty per cent of the time lost was in connection with the strikes of the coal miners in Alberta and British Columbia which lasted from April till the end of August.

Tepping the grain shipments from St. John of the 1921-22 winter season by almost four million bushels and establishing a record for the port for volume in a single shipment for one vessel, the single shipment of 1,529,931 bushels of grain shipped from the Canadian Pacific elevators up to May 1st totalled 1,529,931 bushels. The single shipment record was made on an all-wheat cargo of 1,505,793 bushels.

## AROUND THE TOWN

Mr. and Mrs. Harold Alkenhead were visitors at Calgary this week.

Miss Nan Johnson was a visitor in town on the 24th.

Miss Marie Chambers is visiting at the home of her parents Mr. and Mrs. H. W. Chambers.

Mr. and Mrs. Traab are attending Missionary meetings at Yellowknife, Sask.

Mr. Liggett, the new inspector for the Oids district, is inspecting the public school this week.

Mr. R. Moon was a visitor in Calgary on Tuesday afternoon where he traded his Overland car for a seven passenger Studebaker.

The town council have the right idea about roads. It makes a decided improvement to have them dragged when they are drying up.

Every lady will be welcomed at the Finland W. C. T. U. Mother's meeting to be held at the home of Mrs. Joe Clarke, Burnside, on Wednesday, June 6th. Topic: "Playing With Fire."

Owing to the heavy downfall of rain last Saturday, Mrs. Moynihan's sale which was advertised for that day was postponed to this Saturday, June 2. A list of the sale will be found in another column.

The rain storm of Saturday and Sunday, accompanied by a little thunder, was the heaviest we have had since 1917 and according to farmers insures a good crop for this district this year, as far as moisture is concerned.

The Presbyterian Ladies Aid will hold their regular meetings on Wednesday, June 6th, at 3 o'clock, at the home of Mrs. Morrison. As this is the last meeting during the summer months everyone is requested to be present.

The 24th of May was passed very quietly here this year and the absence of firecrackers and fireworks as compared with other years was very noticeable. The ball game for the afternoon and dance in the evening attracted good crowds which kept the town fairly lively.

A special invitation is extended to all ladies to attend a garden meeting on Friday, June 1st at 3 o'clock in the afternoon, at the home of Mrs. H. Reiber. A Temperance program will be rendered consisting of read-

ings and musical numbers. Lunch will be served and an offering taken for the prohibition cause.

The Women's Institute wish to announce that Mrs. Davidson who is teaching sewing, will be in Didsbury June 1-3. The meetings will be held in the Old Shaw store commencing at 3 in the afternoon and 7:30 in the evening. Anyone wishing to take advantage of this opportunity should come supplied with material, pattern, scissors, thread and tape. The ladies of Didsbury have been waiting for two years for this opportunity. There will be talks in the evening on Fabrics etc. These demonstrations are free to the ladies of this district.

## "THE LAVENDER BATH LADY"

Millions for a day! Maybe two days, but that doesn't matter. "The Lavender Bath Lady" comes to the Didsbury Opera House on Tuesday evening after the ball game. It is a Universal Photoplay presenting Gladys Walton as the shop girl her life of a story of adventure and sad, den riches. Every girl of similar age has at some time visualized in her heart the prospect of a like jump into wealth.

## Here and There

Panama canal tolls for April amounted to \$1,878,967.

About \$2,264,000 is to be spent on the construction of roads and bridges in the province of British Columbia this year.

The Customs and Excise revenue for April amounted to \$20,000,000, an increase of \$5,000,000 over the receipts of April of last year.

Emigrants numbering 15,000 left Scotland for Canada during the first four months of the year, according to consular estimates in Glasgow.

Canadian flour has at last been placed on the Panama market. One boat has just loaded the first consignment of any size, 1,000 barrels being taken.

Seventy-five per cent of the copper produced in Canada in 1922 was the output of British Columbia mines. The Canadian production for the year was 7,321,402 pounds, of which British Columbia accounted for 5,492,221 pounds.

The famous Chateau Frontenac husky dog team, remembered by visitors during last winter's sports season, is being perpetuated. One of the dogs has just given birth to three pups, and if the youngsters turn out to be like their parents the Chateau Frontenac team is likely to continue winning dog derbies.

Fishing licenses in the Maritime Provinces have been reduced. The special fishery regulations for Nova Scotia, New Brunswick and Prince Edward Island have been amended to provide that in many instances where the license has been more than a dollar it will now be one dollar.

No limit will be set to the help to be offered to new settlers in the agricultural sections of the province of Quebec, according to Premier Taschereau. The latest government provision is to pay colonists at the rate of \$400 per acre for land cleared on their colonization lots since 1920. \$7,000,000 have been voted for provincial colonization.

The decision of the Canadian Pacific Railway Company to grant agreements of sale with 30,000 Canadian farmers in the west and enter into new contracts with them, extending over 31 years on an amortization basis, will affect agreements of a value of approximately \$100,000,000, and relieve many farmers of heavy pressing debts.

The new motor ferry operated between Victoria, B.C., and Bellingham, Wash., develops a speed of 14 knots in adverse weather. This motor driven vessel, recently launched, is the first of its class to be used in this service and the first to be added to the Canadian Pacific fleet. It has a capacity for 50 automobiles.

Abraham Martin, first British settler in Canada, first King's Pilot on the St. Lawrence and first fur trader on the Plains of Abraham, which were named after him, has been honored by the Canadian Pacific Steamships, Ltd., at Quebec by the erection of a granite shaft. Hon. Algonquin David, Provincial Treasurer of Quebec, officiated at the unveiling ceremony recently.

Two thousand Canadian Red Men are expected to participate in the Calgary stampede and to march in to Banff for their celebrations and pow-wow on the Indian Days, July 16th and 17th. Among the activities of the Banff will not as be a horse, pony racing, wrestling an horseback, shooting with the bow and arrow, tent-pitching and camp making contests are among the features.

A big joint picnic of Rugby, Zella and Hartmann C. F. A. locals will be held on Friday, June 8th in the grove of G. R. Swiggle, ten miles west of Didsbury. There will be Sports, Ball game (Hartmann vs. Waterdale), music, and speaking. Mr. Claypool, M. L. A., being chief speaker of the day. Lots to eat and drink, so pack your troubles in the old kit bag, forget the old farm, come and see your neighbors and listen to what Mr. Claypool has to say for himself. Don't forget the date.

Wednesday, June 20th is the date set for the Didsbury Sports. Look up their bills which are now out.

The party who lifted a flash light from the chopping bin at the Maple Leaf Flour Mills on Wednesday is asked to return same and avoid any trouble.

On Account CANADIAN POWER FARMER

**YOU GET  
THE AMOUNT OF THAT CHEQUE**

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

THE CANADIAN POWER FARMER is Western Canada's largest farm monthly. It is now in its twentieth year which means that it is thoroughly ingrained throughout the West. It deals with the mechanical side of the farm. Every farmer is full of helpful hints and experiences on the operation of all kinds of farm machinery from a washing machine to a tractor. Its editorial staff consists of men that are familiar with every branch of farming back from the practical and theoretical standpoint. Every month the magazine contains experiences and is readers. Many of these are short but they are real money money to farmers.

The other way you can get it at any time. Without doubt your interest in it is intense for this week, then why not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the \$1.00.

It must be pleasant fishing on the banks of the Deep Pond on Sunday evenings. Best.

## ARMSTRONG ACQUITTED

EDMONTON, Alta., May 20.—"Not guilty" was the verdict brought in by the jury at 3:35 p. m. yesterday as to the sound of loud applause for former postmaster, George S. Armstrong, was absolved of the charge of theft of \$5000 in Merchants bank bills from the registration department of the Edmonton postoffice in August, 1919.

After the charge to the jury by Mr. Justice Simmons, and the retirement of the laymen at 3:25, but ten minutes elapsed before the jury returned their verdict. It was about 3:30 p. m. and took their places.

Following the decision was a hurricane of handclapping, this demonstration being speedily quelled by the sheriff. No rider was added to the verdict by the jury.

The postmaster, who throughout the trial sat at his counsel's table, was ordered to stand, Mr. Justice Simmons announcing "you are discharged, Mr. Armstrong—the court is adjourned." Then the man who all through the long nerve-racking trial had maintained his composure broke down, as with his wife standing at his side friends crowded around to congratulate him.

LAKE CHUZENJI—JAPAN'S LAKE LOUISE

JAPAN has so distinctly put herself "on the map" that the well-travelled person is now compelled to put the "Land of the Rising Sun" into his life's itinerary. Improved trade relations and growing interest in things belonging to the other side of the globe, make a closer study of the countries there of prime importance.

Transportation, trans-continental and trans-Pacific, has become so highly developed that it is as easy to get to Japan as to Italy. Ninety-two hours from Montreal to Vancouver, trans-Canada, and the fastest time across the Pacific—a trifle more than nine days—puts the traveler into Yokohama, the chief port of the Land of Nippon.

Here the sights are unusual. Jinnikashas feast one another in their competition to get the few cents charge for running the traveler in and out among the narrow streets

amid crowds of strangely garbed people, curious shops, street hawkers, endless numbers of brilliant kimono-clad children, and cars drawn by men and beasts.

Adding to the natural beauty of Japan is the cultivation. Japanese are the best agriculturists and gardeners in the world. There have been written about Mount Fuji and the mountains, lakes and streams of the country. Lake Chuzenji is the Lake Louise of Japan and Mount Fuji, its Mount Rainer, although not so high. The cherry blossoms are not so wonderful as those of this country—if one remembers the hundred miles of orchards in Nova Scotia's Evangeline Land and Annapolis Valley.

Those who are contemplating an early summer holiday might well select Evangeline's Land, Nova Scotia, for a trip. For miles and miles along the Dominion Atlantic Railway the land is one mass of apple blossoms, Cherry blossoms,

too, dot the scene, making a sight that is wonderful and refreshing. The bulk of the Nova Scotia apple crop goes to Great Britain, but great quantities of British Columbia apples are exported to the Orient.

The cherry trees in Japan are raised for their flowers and not for their fruit, as, strangely enough, they bear no fruit.

Although the voyage from Vancouver to Yokohama is longer than the four days at sea from the Eastern seaboard via the St. Lawrence River Route to Europe, the Canadian Pacific Empress steamers, largest and fastest on the Pacific, are so thoroughly comfortable that the time slips away quickly. All of these steamers are so equipped that most all of the amusements to be had on land are also to be found on board.

April marks the beginning of the best season in Japan and even further down the Chinese coast to Manila.
